Dear Mr. Genc Gergjani

Our organization, as the implementing agency of Japan's Official Development Assistance, has thus far committed two project loans which total in excess of 4.7 billion Japanese Yen with the view of promoting your country's future economic development. Both of these projects are in the power sector which we have identified as the sector of strong strategic importance.

In implementing these projects, in face of severe difficulties, you have met this challenge with personal dedication and professionalism uncommonly found. We highly appreciated of your function as our counterpart manager and sincerely regret the unfortunate news that you will now leave to other interests.

I personally hope for all the best to you and to your family, as well as good prospects on your new appointment.

Sincerely yours,

Junichi Hasegawa  
Director,  
1st Division,  
Operations Department III
