Subject				
<u>Mr. Genc Gjergjani</u>				

Since some years we are in contact with Mr. Gjergjani for different electric power projects in Albania

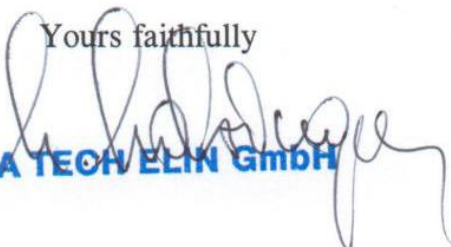

We confirm that Mr. Gjergjani is an experienced technical engineer with a solid background who easily could adapt to specific questions, problems or tasks.

Mr. Gjergjani is, however, also very well acquainted with the economical and commercial aspects of a project. In the last couple of years Mr. Gjergjani was acting as the Deputy General Director of KESH – the Albanian National Power Utility.

From our judgment Mr. Gjergjani is well qualified for a senior or top management position in the field of electric energy production and distribution or any associated industry.

We are also ready to provide any further information if required.

Yours faithfully
